

Special Issue on Pediatric Surgery

Call for Papers

Pediatric surgery is a subspecialty of surgery involving the surgery of fetuses, infants, children, adolescents, and young adults.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Pediatric Surgery**. Potential topics include, but are not limited to:

- Diagnosis and treatment
- Surgical approaches for congenital and acquired anomalies and diseases
- Fetal and neonatal surgery
- Surgery for injuries
- Appendicitis and appendectomy
- Transplantation operations
- Endoscopic procedures
- Advanced and emerging surgical technologies
- Children cancer management
- Postoperative care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Pediatric Surgery**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 29th, 2021
Publication Date	June 2021
