

## Special Issue on Statistical Methods and Analysis

### Call for Papers

This special issue on “**Statistical Methods and Analysis**” will be focusing on the latest development in applications of statistical methods on experimental studies and observational studies, such as correlation analysis in treatment effects, regression analysis of adsorption curves and so on. As one of the most important means, **statistical methods and analysis** are of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **statistical methods and analysis**. Potential topics include, but are not limited to:

- Statistical methods and statistical analysis
- Correlation analysis, regression analysis, factor analysis
- Biostatistics, energy statistics, social statistics

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Statistical Methods and Analysis**” should be chosen during your submission.

According to the following timetable:

|                  |                     |
|------------------|---------------------|
| Manuscript Due   | November 20th, 2013 |
| Publication Date | December 2013       |

**Guest Editor:**
