

TABLE OF CONTENTS
Volume 2, Number 3, August 2012

“D-cell hypothesis” of schizophrenia: Possible theory for mesolimbic dopamine hyperactivity
K. Ikemoto.....141

Mast cells and multiple sclerosis in females and males
P. G. Krüger, S. Mørk.....145

Tyrosine hydroxylase and Lewy body molecules immunoreactivity in the SNC neurons of an AS/AGU mutant rat
A. G. Al-Kushi, D. Russell, A. P. Payne.....150

The general motor programmer: Its specialization for speech perception & movement
A. M. Keane.....156

Comparison of the effects of perinatal and neonatal administration of sodium ferulate on repair following excitotoxic neuronal damages induced by maternal oral administration of monosodium glutamate at a late stage of pregnancy
Y. P. Zhang, L. J. Yu, R. D. Ma, X. Y. Zhang, T. X. Yu.....159

Effect of propofol on local field potential in rat prefrontal cortex during working memory task
X. Y. Xu, G. L. Wang, W. Q. Zhai, W. W. Bai, T. T. Liu, X. Tian.....166

The use of DCEEG to estimate functional and metabolic state of nervous tissue of the brain at hyper- and hypoventilation
S. Murik.....172

The figure on the front cover is from the article published in World Journal of Neuroscience, 2012, Vol. 2, No. 3, pp. 172-182 by Sergey Murik.
